# Conservatory Living

Luxurious natural furniture for inspired and contemporary living

# Ocean Designs

For you the very best in natural, luxurious rattan furniture...

Ocean Designs bring together European designers and the skills of far eastern craftsmen to create a range of stunning hand-made furniture using rattan, banana leaf, kudu and teak – natural materials selected not only for their beauty, but also their intrinsic durability.

## Designed for Comfort

We feel that good looks alone is not enough; our designers have gone to great lengths to create real comfort, using correct dimensions and angles coupled with the best upholstery techniques and fillings.

This level of comfort is what sets our product above others and ensures you experience true relaxation, long-term.

## Build Quality

Look below the surface of a piece of Ocean furniture and you will find solid wood frames with screwed and glued construction for a truly hard-wearing product.

## The Environment

All Ocean products use materials from fully renewable resources. Rattan is one of the few truly

renewable rain forest products and grows in the tree canopies of the rain forests of South East Asia.

Rattan cannot grow without this forest environment and so provides practical encouragement for rattan harvesters to maintain the primary rain forest on which it is dependant for growth.

When rattan is harvested it re-grows naturally. In short, rattan is truly self-regenerating. All timber used is harvested from managed forests and our factories are independently audited to ensure the required quality is maintained and good working practices adhered to.

## Huge Choice

With over 20 furniture ranges and 80 fabric options, you will be spoilt for choice and certainly able to create the perfect look for your home. We also offer a bespoke service, so if the fabric you desire isn't amongst our selection, our upholsterers will happily finish your suite in a material of your choice or why not choose from our own specially selected noted designers?

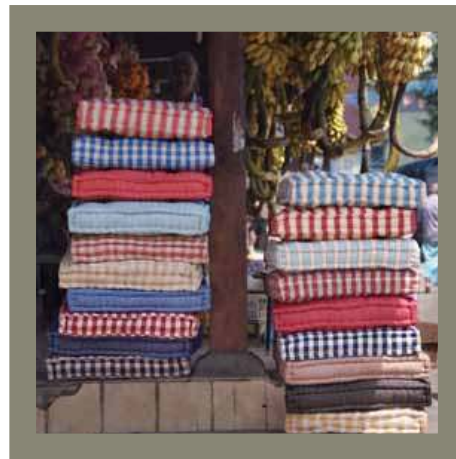

## Designer Fabrics to Tailor Make Your Furniture

Ocean Designs are proud to work with some of the most noted designers in the world to offer you an exciting and varied selection of fabric ranges so you can create the ideal furniture to complement your interior design

Designers Guild, Malabar, Nina Campbell and Osborne & Little are renowned and respected for their creativity, innovation and quality. Their inspiring ranges of fabrics and exacting standards will ensure you get the latest styles for your furniture fabric.

## CARING FOR YOUR FURNITURE

Below are a few recommendations to help maintain the look and quality of your furniture.

1. Rattan frames can be cleaned by simply dusting. A brush attachment on a vacuum cleaner will remove dust from woven areas.
2. Cushions should be plumped and turned regularly.
3. All cushion covers are removable for cleaning. These are either suitable for dry cleaning or machine washable at 40 degrees. Ask your retailer for details.
4. When furniture is placed on wooden and laminate floors, felt pads should be placed under the legs to avoid any possible scratching of the floor.
5. The use of blinds in conservatories is recommended to protect the furniture from the effects of prolonged direct sunlight.
6. A damp cloth should be used to clean wooden tables.
7. Avoid placing hot objects directly onto wooden table tops.
8. When moving your furniture always lift it. Dragging the furniture across a floor may result in damage to the furniture legs and, in turn, damaging to your flooring.

- Ocean Designs reserves the right to alter or modify the specification under a policy of continuous improvement.
- All measurements are overall and approximate.
- Variation in colour of the rattan is natural and may occur between pieces.
- Accessory scatter cushions featured are optional extras.
